For 2nd - 5th Grade Students

Century at Burnside Plantation aligns with PA Common Core standards for Grades 2-5 and integrates academic standards for STEM education themes and concepts.
Historic Bethlehem Museums & Sites is proud to present our Burnside virtual field trip experience for students in grades 2-5.

Focusing on various aspects of life on a colonial farm, from work in the house to the building of a barn, to work-saving farming technology, and much more, the virtual learning program engages students to learn in exciting ways.

Students will explore various topics through video lessons with a costumed museum educator, safely modified hands-on activities, and many other interactive elements. Our virtual Burnside trip compliments our on-site program, Century at Burnside, all from the convenience of your computer.

**$7.00 per student**

**6 fun lessons**

**virtual or hybrid learning**

**5 - 6 Hours of Classroom Material**

- Our virtual experience is flexible to cater towards your learning schedule
- Explore as a single-day field trip or by each section individually for a fun activity throughout the week
- Content curriculum is divided into 6 sections, each ranging from 45 to 60 minutes

Optional pre and post-visit learning material available as well!
Each curriculum provides an immersive learning environment with:

- A video lesson presented by a knowledgeable museum educator in colonial clothing
- An activity that provides further exploration of the topic
- Interactive learning pages - including scavenger hunts, matching games, and photo galleries
- An end of unit quiz to review what students have learned

Activities include a scavenger hunt, paper strip weaving, and a no-bake food project that are sure to keep students engaged and learning!

This virtual field trip complements our on-site program A Century at Burnside Plantation. Contact our Education Manager, Keith Sten, to learn more about scheduling an on-site visit to expand your learning experience!

“Our experience here at Burnside Plantation was wonderful! I love how interactive the learning is and how everything is so well organized! Thank you!“

-Kellie Dulin, 5th grade teacher Zephyr Elementary

“The program was very informative and guides were wonderful. Students learned many new things and were excited to share what they learned when we returned to school. The program tied directly into our SS unit on colonial life.”

- Erin Hudson, Hopewell Elementary 3rd Grade

“Visiting Burnside is one of the highlights of third grade! Students have a great interest learning about Bethlehem and the early Moravians. Getting to actually visit made it even more interesting to the students! The entire day was interactive, hands on, and engaging. We look forward to visiting each year.”

-Katie Murnin, Spring Garden Elementary 3rd Grade
